MEMORANDUM FOR: Acting Project Director

SUBJECT: Ad Hoc Requirements Committee  
Requirements for the KLYUCHI Mission

1. The requirement here is for area coverage with the best scale photography possible.

2. Interest in the KLYUCHI area centers on the identification of possible installations affecting guided missiles either in regard to impact or in regard to launch. The items of interest which are shown on the overlay, it will be noted, are roughly in the shape of a triangle, and it is emphasized that KLYUCHI, the handle whereby we speak of the area, should not be misconstrued as a pinpoint target.

25X1B

4. Coverage of PETROPAVLOVSK is desirable but of lower priority than the KLYUCHI area.

5. The Ad Hoc Requirements Committee calls attention to the fact that, while proposed collection in the KLYUCHI area

can be of important significance it will be of much greater significance if such information can be coordinated with that produced from missions over KAPUSTIN YAR or the KYZL ORDA area. This will be so unless it is confirmed that KLYUCHI is a launch area, in which case KYZL ORDA area may decrease in importance since in all likelihood it would be an impact area.
